Senior UX Designer & Experience Strategist | AI Automation

Senior Product & UX Designer specializing in AI automation, with 8+ years across Banking (ICICI), E-commerce (Amazon) and Real Estate tech (eXp Realty). I lead end-to-end experience design, from customer research, journey mapping and service blueprints to design systems and AI-powered workflows. I've shipped work that raised daily active users 40%, cut task time 25% and grew order value 25%, and I prototype quickly in Figma, Cursor and Lovable.

- Experience across Banking, E-Commerce, and Real Estate.
- Expertise in Customer Experience (CX), Experience Design, Journey Mapping, and Service Blueprinting.
- Proven ability to deliver customer-centric innovation and business-impacting outcomes.
- Passionate about AI-assisted design, innovation, and continuous improvement.
- Strong stakeholder management and cross-functional leadership capabilities.

EDUCATION

- **PG Diploma in Design** | Manipal Academy of Higher Education | 2018
- **M.C.A** | Osmania University | 2017
- **B.Sc, Computers** | Andhra University | 2014

TECHNICAL SKILLS

- **Experience Design & CX:** Customer Journey Mapping | Service Blueprinting | Persona Development | Design Thinking | Experience Strategy | Design Systems | Accessibility (WCAG)
- **User Research:** Qualitative & Quantitative Research | Stakeholder Interviews | Usability Testing | Heuristic Evaluation | Behavioural Analysis
- **Design & Prototyping:** Figma | Figma Make | FigJam | Sketch | Adobe XD | HTML/CSS | Wireframing | Interactive Prototyping
- **AI & Automation:** Cursor | Claude | Lovable | Stitch | AI Workflow Automation | AI-Assisted Research Synthesis | Agent-Driven Prototyping
- **Collaboration:** Miro | Jira | Confluence | Stakeholder Management

WORK EXPERIENCE

eXp Realty India Private Limited — Senior UX Designer | Feb 2023 – Present

Lead UX for eXp Realty's transaction-management platform, the myEXP agent portal and other agent tools, with a focus on AI automation, and mentor a team of junior designers.

- Own end-to-end UX for eXp's transaction-management platform, including Deal Desk, which agents and brokers use to manage real estate deals from offer to close.
- Designed AI automation for transaction workflows, including document review, data entry and compliance checks, reducing manual work for agents and the operations team.

- Led a redesign of the web app, based on UX audits, agent interviews and usability testing, that raised daily active users 40% and cut task time 25%.
- Design end to end, from research, user flows and wireframes to high-fidelity UI, and prototype quickly in Figma, Cursor and Lovable to validate ideas early.
- Built and expanded reusable design-system components, improving consistency across transaction and agent-productivity tools.
- Partner with product, engineering and business stakeholders to balance user needs, business goals and technical feasibility.
- Mentored 5 junior designers on UX principles and design-system standards, and reduced onboarding time for new designers.

Amazon Development Centre India — UX Designer | Aug 2020 – Feb 2023

Led customer experience design for Amazon Food and Fresh, and designed seller and buyer marketing experiences and an internal timelog tool.

- Led "Shop by Recipe" from concept to launch, turning meal ideas into purchases through ingredient recommendations, guided shopping and personalized discovery.
- Redesigned Food and Fresh discovery based on customer research, behavioural insights and usability testing, raising app usage by 40% and average order value by 25%.
- Designed and built marketing pages and campaign experiences for both sellers and buyers in HTML and CSS, following Amazon's design standards.
- Designed an internal timelog tool that made logging and tracking work hours simpler and faster for teams.
- Created journey maps, user flows, wireframes and interactive prototypes, and ran working sessions with product, engineering, data and business teams to set priorities.
- Won Amazon's Best Employee award.

ICICI Bank — UX Designer | Oct 2018 – Aug 2020

Led customer experience design for ICICI Bank's iMobile app and employee banking tools. I turned research, journey mapping and usability testing into simpler, faster banking journeys.

- Redesigned the iMobile dashboard over 6 months, based on 15 customer interviews and 3 personas, moving balance and upcoming transactions to the top and bringing key actions out of the hamburger menu.
- Tested wireframes with 8–10 users and iterated on the design to simplify everyday banking tasks and reduce friction.
- Created customer journey maps, service blueprints and personas, using design thinking and jobs-to-be-done methods, to improve customer and employee journeys.
- Ran design thinking and co-creation workshops with business, product, technology and marketing teams to agree on experience strategy.
- Redesigned employee-facing banking applications to make internal workflows simpler.
